

## Corporate Controller

### About Us

Glympse Bio is pioneering the development of synthetic biomarkers – biochemical sensors developed using breakthroughs in science, engineering, medicine and artificial intelligence – that are engineered to be perfectly tunable to any disease and offer earlier measures of response to disease and treatment. Our synthetic biomarkers are administered to patients and tailor-made to query the activity of key biological targets such as proteases – a class of enzymes that drive critical disease pathways. We are building a novel biomarker technology platform from the ground up, laying the foundation for innovative diagnostics which combines nanotechnology with AI to improve the lives of potentially millions of patients worldwide.

### Position Summary

We are seeking an exceptional candidate for our Corporate Controller position to build, lead and manage the accounting operations of the Company. This is a newly created position reporting to the Chief Financial Officer and is an opportunity to contribute significantly to a top-tier, rapidly growing, privately held life sciences company. The successful candidate will have a willingness and ability to manage and execute the entire range of tasks required to support the Company's accounting function. This position is responsible for all aspects of the internal financial reporting function and managing daily accounting operations, period closings, audits, internal controls as well as corporate policies / procedures and compliance functions. The ideal candidate will have significant experience in successfully improving and scaling business systems and processes in a fast-paced, dynamic life sciences environment.

### Responsibilities

- Lead the accounting operations of the company including maintaining an adequate system of accounting records / policies and a comprehensive set of controls designed to mitigate risk and enhance the accuracy of the company's reported financial results
- Provide day-to-day management of the accounting function, ensuring proper and timely accounting of transactions to facilitate comprehensive, transparent and accurate views of the financial stage of the business
- Monitor and review for accuracy the general ledgers, balance sheet reconciliations and financial statements for preparation of internal and external GAAP conformed financial statements
- Prepare monthly, quarterly and year-end financial statements
- Assist with maintenance of the Company's capitalization table
- Partner with company leadership to develop, monitor / track and analyze budget and forecasting
- Oversee the independent valuation and year-end independent financial statement audit
- Manage the Company's tax reporting and state filing requirements
- Research and advise the Company on the adoption of critical financial systems and lead implementation of systems and processes
- Manage and develop the accounting team members and hire new members as needed

- Take lead on preparing and readying the organization for SEC standards and implementation of internal controls for Sarbanes-Oxley, as required

### **Qualifications**

- Bachelor's degree in Accounting; Master's degree preferred
- CPA required
- 10+ years of prior experience in corporate and / or general accounting, including recent company experience as the controller or assistant controller
- Big 4 public accounting, SEC reporting and US GAAP experience preferred
- Prior employment in the life sciences / biotechnology industries strongly preferred
- Privately held, VC-backed company experience strongly preferred
- Five or more years of supervisory experience
- Experience implementing and maintaining ERP systems and developing reporting and analytics capabilities
- High personal integrity and strong work ethic. Ability to operate with substantial latitude in fast-paced environment
- Strong communicator (written & verbal) and team player with client-centric approach

### **The Ideal Candidate:**

- Brings courage, character, humility, and energy to work every day
- Is motivated to improve the lives of the people they serve
- Is excited about what might be possible, sees problems as challenges to be overcome, and is driven by curiosity and creativity
- Is optimistic and committed to Glympse's mission

### **EEO Disclosure:**
